### Product Description:

Anilox Roller Cleaning Equipment is a customized machine for anilox washing. It is designed for printing and other industries that require anilox roller cleaning. The tank size of Anilox Roller Cleaning Equipment is 900\*600\*250mm, and the operating temperature is 5-50°C. It has a fast and effective cleaning time of 5-15min. The Anilox Roller Cleaning Equipment comes with a 1 year warranty and provides a safe and reliable anilox washing solution. It is ideal for anilox roller cleaning and can be used for a variety of other anilox washing tasks. With Anilox Roller Cleaning Equipment, you can save time, effort, and money while ensuring an excellent cleaning result. Enjoy the convenience of a customized anilox roller cleaning machine and experience the best anilox washing results.

### Features:

Product Name: Anilox Roller Cleaning Equipment  
Cleaning Time: 5-15min  
Operating Temperature: 5-50°C  
Warranty: 1 Year  
Weight: 130kg  
Material: SUS304  
Anilox Washing: Quick and effective for printing anilox cleaning

### Technical Parameters:

Product Name	Anilox Roller Cleaning Equipment
Tank Capacity	135L
Warranty	1 Year
Cleaning Time	5-15min
Material	SUS304
Operating Temperature	5-50°C
Cleaning Method	Ultrasonic
Weight	130kg
Power	220V/380v, 3 Phase
Tank Size	900*600*250mm
Features	Anilox washing, Customized Anilox Roller Cleaning Machine, Anilox Washing

### Applications:

Skyemen's Anilox Roller Cleaning Equipment, Model Number JTS-1048W, is designed to offer efficient and reliable cleaning performance, making it the perfect choice for industrial anilox roller cleaning. This China-made equipment is made of high-grade SUS304 material and has a tank capacity of 135L. It offers a cleaning method of ultrasonic and a weight of 130kg.

This customized anilox roller cleaning machine is ideal for those who are looking for a fast and effective way to clean anilox rollers. The machine is capable of removing a variety of contaminants and can be used in a wide variety of settings. It is suitable for any type of anilox roller, including those with different sizes, shapes, and materials.

Skyemen's Anilox Roller Cleaning Equipment is easy to operate and maintain. It is designed with a simple control panel for easy operation and provides a low-cost way to keep rollers clean and operating efficiently. This cleaning equipment is designed to provide the highest standard of cleaning performance, ensuring long-term reliability and performance.

For those looking for an efficient and reliable solution to their anilox roller cleaning needs, Skyemen's Anilox Roller Cleaning Equipment is the perfect choice. With its high-grade SUS304 material, tank capacity of 135L, and ultrasonic cleaning method, this customized anilox roller cleaning machine is ideal for industrial anilox roller cleaning.
